June 27, 2016

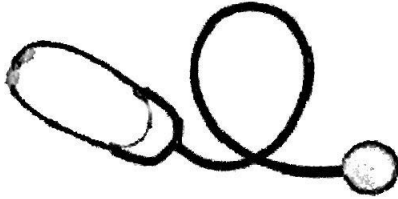

To Whom It May Concern:

██████████ is currently receiving services from our facility. This most recent admission began on November 6, 2013. He receives medication management at this time. He has a diagnosis of ADD, combined and Autism Spectrum Disorder for which he is prescribed Focalin XR 30mg in morning, Focalin 10mg at noon and 3pm. He is also being treated with Remeron 15mg for sleep disturbances, and Buspar 5mg twice a day for anxiety and depression symptoms.

██████████ is currently compliant with MD appointments. His next appointment is scheduled for September 24, 2016.

Sincerely,

Heather L. Cleary, LPC
