

## Free Public WiFi for Georgians

Source: <https://broadband.georgia.gov/georgia-internet-access-covid-19-update>

Here is the current list of locations of wi-fi options in Georgia, offered by state and local governments, public libraries, telecommunications cooperatives, and other WiFi providers. Many internet service providers also have opened their public WiFi locations, to be used by Georgians free-of-charge - please visit those providers' website for more information.

The Georgia Department of Community Affairs will add locations as we discover more Free Public WiFi options - please check the website above for future updates. If you operate a location with Free Public WiFi, and would like to have your location included here, please contact us at [broadband@dca.ga.gov](mailto:broadband@dca.ga.gov).

Some locations are open-access and some require a login, but at this time, we are not able to indicate that detailed information here on this website.

**When visiting these sites, please stay in your vehicle or otherwise follow Governor Kemp's directions to keep a distance of at least 6 feet away from your fellow Georgians. Please also follow your local government's rules restricting travel and outdoor activities. Please practice social distancing at these locations to keep us safe and healthy.**

### Note:

- While many public libraries are currently closed, some are offering WiFi outside their buildings.
- This list does not include the Kindergarten through 12th grade schools providing WiFi access for students.  
To find those locations, please contact your local school.
- This list does not include the Georgia colleges and universities providing WiFi access.  
To find those locations, please contact your college or university.

County	Street Address	City	Zip Code	Type or Name of Facility or Provider
