UNITED STATES OF AMERICA,

Plaintiff,

٧.

NORMAN W. FRIES, INC, d/b/a CLAXTON POULTRY FARMS,

Defendant.

INDICTMENT

The Grand Jury charges that:

COUNT 1

(Conspiracy to Restrain Trade)

1. Beginning at least as early as 2012 and continuing through at least early 2019, the exact dates being unknown to the Grand Jury, in the State and District of Colorado and elsewhere, NORMAN W. FRIES, INC., d/b/a CLAXTON POULTRY FARMS ("Defendant"), together with co-conspirators known and unknown to the Grand Jury, entered into and engaged in a continuing combination and conspiracy to suppress and eliminate competition by rigging bids and fixing prices and other price-related terms for broiler chicken products sold in the United States. The combination and conspiracy engaged in by the Defendant and co-conspirators was a *per se* unlawful, and thus unreasonable, restraint of interstate trade and commerce in violation of Section 1 of the Sherman Act, 15 U.S.C. § 1.

2. The charged combination and conspiracy consisted of a continuing agreement, understanding, and concert of action among the Defendant and coconspirators, the substantial terms of which were to rig bids and to fix, maintain, stabilize, and raise prices and other price-related terms for broiler chicken products sold in the United States.

I. <u>BACKGROUND</u>

- 3. Broiler chickens are chickens raised to provide meat for human consumption. Several companies ("Suppliers") produced broiler chicken products in the United States for sale either directly or indirectly such as through a distributor and a distribution center ("DC") to restaurants, grocery retailers, and others.
- 4. Restaurants, grocery retailers, and others who purchased large volumes of broiler chicken products generally received bids from or negotiated prices and other price-related terms, including discount levels, with Suppliers directly or, in the case of some fast-food restaurants, also known as quick-service restaurants ("QSRs"), having many independent franchisees, through a centralized buying cooperative.
- 5. Some purchasers of broiler chicken products used a "cost-plus" pricing model for 8-piece bone-in broiler chicken products (alternatively called "8-piece COB" for 8-piece chicken-on-the-bone) that varied month-to-month or period-to-period depending on the price of chicken feed and that also provided Suppliers with a perpound margin and an adjustment that was effectively an additional per-pound margin. 8-piece COB consisted of two breasts, two wings, two thighs, and two drumsticks.
- 6. The price of 8-piece COB often served as a base price for other broiler chicken products. Dark meat was often priced at a certain number of cents per pound

less than, or "back" from, the price per pound of 8-piece COB. As a result, a smaller number of cents back translated into a higher price for dark meat compared to a greater number of cents back. For example, "30 back" was a higher price for dark meat than "31 back."

- 7. Prices for broiler chicken products were sometimes tied to a market index, such as the Urner-Barry Index ("UB"), as an alternative. For example, cases of wings sold in bulk were sometimes priced at the UB per-pound price ("market") and cases of pre-counted wings were sometimes priced at the UB per-pound price plus a specified number of cents per pound ("market plus").
- 8. Bidding and negotiations usually occurred annually toward the end of the calendar year and established prices and other price-related terms, including discount levels, for the following calendar year. In some instances, however, bidding and negotiation toward the end of the calendar year established prices and other price-related terms, including discount levels, for multiple calendar years. In yet other instances, bidding and negotiations occurred throughout the year and sometimes established prices and other price-related terms, including promotional discounts, for discrete periods of time.
- 9. Bidding and negotiations often involved weekly volume commitments between Suppliers and their respective customers. If, in a given week, a Supplier could not meet its volume commitment to a customer, the Supplier could often buy broiler chicken products from another Supplier to cover the shortfall. Alternatively, the Supplier could "short" the customer by not fulfilling its volume commitment that week.
 - 10. Distributors and customers who purchased broiler chicken products from

Suppliers often had lines of credit with the Suppliers. Often a negotiable aspect of a line of credit was the term, *i.e.*, the number of days for a distributor/customer to pay a Supplier for broiler chicken products purchased using a line of credit. A line-of-credit term was related to price. A longer term was generally more favorable to the distributor/customer, whereas a shorter term was generally more favorable to the Supplier.

118. It was further part of the conspiracy that by on or about December 24, 2014, Suppliers had signed cost-plus pricing agreements for calendar year 2015 with Cooperative-1 with the following margins and effective margins:

Supplier	CY 2014	Proposed Margin	CY 2015 Margin

Supplier-7	\$.0900/lb.	\$.2300/lb.	\$.2300/lb.

119. It was further part of the conspiracy that in calendar year 2015, including as late as approximately December 26, 2015, Pilgrim's sold and accepted payment for 8-piece COB through a distributor to QSR-1 franchisees in the United States at a margin of \$.2175.

QSR-3's 8-Piece COB Supply for 2015

- 120. In approximately the autumn of 2014, QSR-3 was negotiating with Suppliers for its 2015 8-piece COB pricing.
- 121. It was further part of the conspiracy that on or about October 17, 2014, the following text message exchange occurred between Penn and Pilgrim's-Employee-3:

Penn	"Who is negotiating with [QSR-3]?"
Pilgrim's-Employee-3	"[Pilgrim's-Employee-4] and Roger [Austin]"
Penn	"Ok. Thanks"
Pilgrim's-Employee-3	"We know [Supplier-7], their biggest supplier is
	0.02 higher than us and they are not going to
	negotiate"
Penn	"Good deal. Last time they did cave a cent or
	two w [QSR-1]"
Pilgrim's-Employee-3	"They are listening to my direction"
Penn	"Who is they?"
Penn	"If they is illegal don't tell me"
Pilgrim's-Employee-3	"Was referring to roger [Austin] listening. Sorry,
	thought you were referring to roger [Austin]
	caving. Got you on [Supplier-7] caving on [QSR-
	1]. [Supplier-7] might cave but I wouldn't think
	for our volume and their current."
Penn	"[Supplier-3] does the west. Hearing rumors out
	of them?"
Pilgrim's-Employee-3	"Buyer said we were .07 high so that must be
	[Supplier-3's] price"
Penn	"They are morons"
Pilgrim's-Employee-3	".07 back is in line with where we have priced
	everybody else but they did not add anything for
	the cost of doing business with [QSR-3] like us
	and [Supplier-7] did"
Penn	"[Supplier-7] is a solid competitor."

- 122. It was further part of the conspiracy that on or about November 7, 2014, Pilgrim's-Employee-3 told Penn: "[QSR-3] just called back...came up on price. Would net somewhere around 1.00 and we went in at 1.04/1.08."
 - 123. It was further part of the conspiracy that on or about November 9, 2014,

Penn told Lovette: "I raised [QSR-3] 15c per lb" and "[QSR-3-Employee-1] and his crew will pay market price plus the special A-Hole Premium."

124. It was further part of the conspiracy that on or about November 10, 2014 at approximately 10:49 a.m. (EST), Pilgrim's-Employee-3 emailed Pilgrim's-Employee-4 and Austin: "I do not really want to get into a pricing war with [Supplier-7] over those two DCs."

Protecting the Purpose and Effectiveness of the Conspiracy

- 125. It was further part of the conspiracy that on or about November 24, 2014, after Supplier-3 asked to purchase broiler chicken products from Pilgrim's to cover a shortfall to Grocer-1-Brand-1 for approximately \$.05/lb. more than the price Pilgrim's had negotiated with Grocer-1, Penn said in a series of emails to one or more co-conspirators employed by Pilgrim's:
- a. "[Supplier-3] should pay for being short. It costs money for them to fill orders for which they don't have the chickens. They have been adding market share and still trying to do selling cheap chicken and being short. Doesn't make sense. We are enabling the town drunk by giving him beer for Thanksgiving instead of walking him into an AA meeting."
- b. "[Supplier-3] is not shorting [Grocer-2]. Note [Supplier-3] just added market share and distribution to [Grocer-2]. They took our business on price. Should we allow [Supplier-3] to not pay for poor decision making?"
- c. "They need to pay so they start acting appropriately. How do they pay? Their customers need to feel the pain. By not feeling the pain [Supplier-3] keeps marching along and the customers to blindly with them."

- d. Penn forwarded his emails to Lovette and said: "Thoughts on deli strategy to [Grocer-1-Brand-1]? We are covering [Supplier-3] shortages. Continue and let [Grocer-1-Brand-1] know we are helping or start have [Supplier-3] feel the pain across their system so they can start making decisions commensurate with a profitable venture and not a philanthropic organization?"
- e. Lovette responded: "No question in my mind. [Supplier-3] should have to live with the decision they made. We made ours and are dealing with it. Why should it be any different for them? We SHOULD NOT HELP THEM ONE MICRON."
- f. Penn responded: "I agree. We are just allowing our competitor to continue their idiotic ways."
- 126. It was further part of the conspiracy that on or about November 26, 2014, Penn said in a series of emails to one or more co-conspirators employed by Pilgrim's:
- a. "Our competition is offering lower margins on this item. Our competition is also currently shorting [QSR-2], [Grocer-1], and [another customer]. All of which we have been asked to cover this week in very slow markets. So in essence they are cheap and to add insult to injury are short product."
- b. "They are calling us three tines this week to help them cover loads on small birds to their new customers their new customers with whom they just increased distribution at cheap prices. So for Thanksgiving should we give Otis a bottle of Crown (aka loads of chicken) or take him to AA (aka make him face the shortage music)?"
- c. "We are straight up taking Otis to AA. No juice for Otis. Otis must face the music for his misguided actions. Selling cheap in a short market no bailout for

you."

- d. "In other words we are not covering the loads for which [Supplier-3] is asking for help."
- 127. It was further part of the conspiracy that on or about December 22, 2014, Penn told Lovette: "[Supplier-3] took this strategy of not worrying about what the competition is doing and it led to the unraveling on a competitive advantage. Have to keep our enemies close and ensure that we are not zigging when the competition is successfully zagging."

QSR-2's 2015 Bone-In Promotional Discount

- 128. It was QSR-2's practice to periodically offer promotional pricing to its customers on certain broiler chicken products for limited periods of time, often for a particular month such as September.
- 129. On or about March 25, 2015, Cooperative-2-Employee-1 asked Suppliers if QSR-2 could get "some type of discount" for a promotion in approximately September 2015 "[d]ue to the increases we incurred this year."

have already agreed to the discount."

- 134. It was further part of the conspiracy that on or about April 1, 2015:

Lovette	Supplier-5- Employee-1	"Will do, they must be following [Grocer-2]. Told them same."
Supplier-5- Employee-1	Lovette	"Somebody must have written this as an MBA class project. We are getting there request from various customers including people like [another customer]"
