Re: June 2022 Financial Report

The General Fund is reported to you on the Cash Basis. When we prepare our financials for audit purposes, we will be reporting on the Accrual Basis, and thus those final numbers may be adjusted. We ended the year with revenues exceeding expenditures by \$13.7 million. This resulted in an ending Fund Balance of \$52.5 million. The following will summarize the variances between budget and actual:

General Fund revenues collected were \$8.7 million over budget and were comprised of the following revenue sources:

- Local Option Sales Tax was \$2.7 million above budgeted revenue.
- State Sources were \$5.1 million above budgeted revenue. As noted on our April 2022 financial report, the state legislature increased the States' Adjusted FY '22 Budget, and by doing so, fully restored QBE funds to districts. In addition, the State provided a one-time salary bonus to employees and funding that through our General Fund.
- Property & other taxes (TAVT, Intangible, and PILOT) were \$.7 million above budgeted revenue, mainly attributed to TAVT collections.
- Local Sources were \$.2 million above budgeted revenue. Mainly attributed to a timing difference with Federal Indirect Cost and a reduction to interest revenue (ultra-low interest rate environment).

Expenditures were \$8.2 million above budget. This was largely due to the one-time salary bonus from the State. When the budget was created, we did not know that the State was going to provide this bonus, and by doing so, it increased our General Fund expenditures in FY '22. Other large items that caused the variance between budgeted and actual expenditures was a reclassification of federally paid salaries back to the General Fund and the school's use of their carryover funds that were identified as reserved fund balance.

Reports to the State have been finalized for our Special Revenue Funds. Those funds have been requested from the State and will be received next month.

School Nutrition had a positive cash flow of \$2.7 million. This was largely due to the increased participation and the meal rate that the federal government reimbursed for all students during the pandemic. That temporary provision from the federal government ended at the close of FY '22.

We expended \$11.4 million in ESPLOST IV Project funds as follows:

- Technology \$2.7 million
- Furniture & Maintenance \$.9 million
- Facilities \$5.5 million
- Instructional \$1.4 million
- Transportation \$.9 million

Debt service had sufficient funds to pay for all of the required principal and interest payments during the year.

Please let me know if you have any questions after reading this report.

Dear Mr. Charles Wilson:

We are pleased to inform you that the State Board of Education has approved the funding allocation in fiscal year 2023 (FY23) for your Nita M. Lowey 21<sup>st</sup> Century Community Learning Centers (21<sup>st</sup> CCLC) subgrant. Funding is authorized under Title IV, Part B of the Elementary and Secondary Education Act, as amended by the Every Student Succeeds Act, and is made available for a total project period of five (5) years contingent upon successful implementation of the subgrant and continued availability of Federal funds for each of the five (5) fiscal years of the award. Your subgrant has been approved for the amount indicated below.

Subgrantee	Amount of FY23 Grant

Title IV, Part B supports the creation of community learning centers that provide academic enrichment opportunities during non-school hours for children, particularly students who attend high-poverty and low-performing schools. The program helps students meet state and local student standards in core academic subjects, such as reading and math; offers students a broad array of enrichment activities that complement their regular academic programs; and offers meaningful opportunities for families of participating children to be actively engaged in their child's education.

An Equal Opportunity Employer

- 1) Provide a reminder about the mandatory 21<sup>st</sup> CCLC workshops for program directors. Every subgrantee must have always at least one representative in attendance during the training. It is strongly recommended that the program director attend all relevant sessions and other individuals (e.g., finance directors, site coordinators) in program leadership are also recommended to attend.

Please note that expenditures may not be charged to the FY23 subgrant period until your FY23 budget has been approved by the Georgia Department of Education (GaDOE) and the assurances governing the fiscal/programmatic responsibilities of subgrantees are agreed upon by the authorized signatory of your 21<sup>st</sup> CCLC program. The program assurances will be agreed upon and signed through the Consolidated Application (Con App) portal as a required step in the budget submission process. The authorized signatory of your 21<sup>st</sup> CCLC program must have access to the Consolidated Application portal in order to agree to the program assurances as well as approve the budget.

Attached to this letter is the Title IV, Part B (21<sup>st</sup> CCLC) Grant Award Notification (GAN), which contains the terms and conditions that apply to all subgrantees receiving 21<sup>st</sup> CCLC funds in addition to the program assurances. Please retain a copy of this document for your records.

Furthermore, it is required that your governing board of directors/fiscal agent approve acceptance of this award. Documentation of this approval and the retention of this documentation are required for annual monitoring purposes. This award letter should also be filed for record keeping purposes.
